

I do not believe that there is an impact on children due to violence shown on Television. However, I do believe that it should be the responsibility of the parent to teach their children that television and programming that contains violent acts is entertainment and there may be legal ramifications for violent acts. I am more concerned about the lack of bias and outright distortion of the facts from both national and local news. I can prevent my child from violent acts he/she commits. I can not control the information my child receives from both liberal and conservative views.
